Massachusetts Tobacco Survey
Youth Survey Instruments

Center for Survey Research
University of Massachusetts,
Boston

Massachusetts Department
of Public Health

DESCRIPTION OF SURVEY INSTRUMENTS

The Massachusetts Tobacco Survey consists of three different survey instruments:

Household Screener: A brief (5-minute) interview with an adult member of the household. It introduces the study, enumerates the members of the household and determines age. For all adults in the household, the screener determines smoking status, ethnic and racial characteristics, and education. This information will be used to estimate smoking prevalence for various geographical regions of the state and for various age, gender, and ethnic groups. It is also used to determine which members of the household (if any) will be scheduled for an extended interview.

Adult Interview: A 20 to 30 minute interview with selected adults.

Youth Interview: A 20 to 30 minute interview with all teens between 12 and 17 who are enumerated during the screening interview.

All interviews will be conducted with a computer assisted telephone interviewing (CATI) system. These paper versions have been designed to mirror the CATI program as closely as possible with additional notations to the reader to help him/her follow the skips.

The following information may help the reader:

1. Upper-case text is not read to the respondent, lower case text is.

2. When lower case text appears in parentheses, it is read to the respondent only if appropriate.

3. When the respondent to the extended interview is the same person who completed the screener, identical questions will not be repeated.

4. The CATI program will, in some cases, abstract information from the screener interview and insert it into the extended interview (i.e. the age of the respondent, whether or not there are smokers in the household).

5. The CATI system is case-sensitive. Thus, a few variables have the same names except for their case differences. Some numbers are skipped because items have been deleted from the final version of the interview.

6. The response category "NA" stands for "Not Ascertained".

The smoking statuses differentiated on the adult and youth instruments are delineated on the following pages.

ADULT SMOKING STATUSES

The following questions on the adult interview determine smoking status: aa6 aa7 aa7a ac3	
CURRENT DAILY SMOKER	SMOKES EVERY DAY (aa6), HAS SMOKED 100 CIGARETTES IN LIFE (aa7).
CURRENT OCCASIONAL SMOKER	SMOKES SOME DAYS (aa6), HAS SMOKED 100 IN LIFE (aa7).
RECENT EXSMOKER (VERY RECENT EXSMOKER)	SMOKES NOT AT ALL (NOW)(aa6), HAS SMOKED 100 CIGARETTES IN LIFE (aa7), AND QUIT DURING PAST FIVE YEARS (aa7a). (QUIT DURING PAST 12 MONTHS)
REMOTE EXSMOKER	SMOKES NOT AT ALL (NOW)(aa6), HAS SMOKED 100 CIGARETTES IN LIFE (aa7), AND QUIT MORE THAN FIVE YEARS AGO (aa7a, ad1).
NON-SMOKER	HAS NOT SMOKED 100 CIGARETTES IN LIFE (REGARDLESS OF CURRENT LEVEL OF SMOKING) (aa7).

YOUTH SMOKING STATUSES

The following questions on the youth interview determine smoking status: yd1 yd2 yd7 yd10 yd11	
CURRENT SMOKER	HAS PUFFED (yd1), SMOKED A WHOLE CIG. (yd2), SMOKED SINCE THE FIRST CIG. (yd7), SMOKED AT LEAST ONCE DURING PAST 30 DAYS (yd10).
EXPERIMENTER	HAS PUFFED (yd1), SMOKED A WHOLE CIG. (yd2), SMOKED SINCE THE FIRST CIG. (yd7), HAS NOT SMOKED DURING PAST 30 DAYS (yd10), BUT HAS SMOKED DURING THE PAST 12 MONTHS.
QUITTER	HAS PUFFED (yd1), SMOKED A WHOLE CIG. (yd2), SMOKED SINCE THE FIRST CIG. (yd7), HAS NOT SMOKED DURING PAST 30 DAYS (yd10), AND HAS NOT SMOKED DURING THE PAST 12 MONTHS.
ONE-TIMER	HAS PUFFED (yd1), SMOKED A WHOLE CIG. (yd2), BUT HAS NOT SMOKED AGAIN (yd7).
PUFFER	HAS PUFFED (yd1), BUT HASN'T SMOKED A WHOLE CIG. (yd2).
NON-SMOKER	HAS NOT EVEN PUFFED (yd1).

FINDESCP.SVY

HOUSEHOLD SCREENER

S1. Hello, my name is (INTERVIEWER'S NAME) and I am calling from the University of Massachusetts as part of an important health study on behalf of the Massachusetts Department of Public Health.

S1a. Are you at least 18 years old?

IS 18 YEARS?

YES . . . . . 1 [GO TO S2]

NO 2

S1b. (IF NOT) I would like to speak with a member of this household who is at least 18 years old.

AVAILABLE . . . . . 1 [GO TO S1D]

NOT AVAILABLE . . . . . 2 [ARRANGE CALL BACK]

NO MEMBER IS 18 OR OVER 3

S1c. May I speak with the oldest person who lives here?

AVAILABLE . . . . . 1 [GO TO S1D]

NOT AVAILABLE . . . . . 2 [ARRANGE CALL BACK]

S1d. (IF NECESSARY INTRODUCE SELF AGAIN).

S2. Last January people in Massachusetts voted to increase the tax on cigarettes by 25 cents a pack. The Massachusetts Department of Public Health is using some of that money to do research on smoking. As part of that, we are interviewing a large sample of smokers and nonsmokers about their health and their feelings about smoking and tobacco.

This interview should take 5 minutes or less and we are just getting basic information about the smoking and background of household members. In some households we'd like to interview smokers and nonsmokers in more depth, but first we need information about you. All answers are confidential. Your help is voluntary, but it is very important. You can skip any of the questions you like.

$30,001 to $50,000 4

$50,001 to $75,000 5

over $75,000? 6

NA 9

DON'T KNOW 7

Thank you very much for your help with this study.

We would like to interview your child about (his/her) attitudes and opinions related to tobacco use and other health issues. (This is for the Massachusetts Tobacco Study sponsored by the Massachusetts Department of Public Health).

The interview should take less than 30 minutes and all responses are confidential, and participation is voluntary. Your child(ren) can skip any questions that (he/she/they) would prefer not to answer.

Some of my questions require that your child(ren) name tobacco brands. If you hear him or her naming brands, it doesn't mean that they have ever used tobacco. It just means that they know something about an advertisement they saw or heard.

Finally, I would like to request that your child be allowed to answer these questions privately. We believe that children and teenagers may be less comfortable if their parents are listening. We're concerned that their answers may be less accurate if a parent is listening.

*******May we interview your child? *******

YOUTH SURVEY

SECTION A: INTRODUCTION

bgn1 Hello, my name is (INTERVIEWER NAME) and I'm calling from the University of Massachusetts on behalf of the Massachusetts Department of Public Health. We are gathering information about Massachusetts teenagers' attitudes and behaviors related to smoking. While your participation is voluntary, your cooperation is very important to the success of this study. Your answers will be kept strictly confidential. Your answers will be immediately coded in a computer. We do not know your name or where you live. Once we finish the interview, even your phone number will be separated from your answers.

bgn2 Finally, you can skip any question you do not want to answer. Do you have any questions before we begin? Are you in a place where you feel comfortable talking about these issues now?

ARRANGE CB IF NEEDED?

ya1 I would like to begin by verifying some general information about you.

I have your age recorded as _____.

Is that correct?
